

## CCPR, the voice for sport and recreation, supports findings of Facilities Inquiry

Many key stakeholders from across sport attended the launch of the Facilities Inquiry report – and welcomed the findings as a positive contribution to the debate around facilities. Amongst these the CCPR Board has unanimously decided to support the Inquiry's seven key recommendations, with a primary focus on recommendations one and two. CCPR would also encourage its member organisations to consider how they can contribute to moving the Inquiry's recommendations forward.
