

Sarah Winckless presents Inquiry findings at County Playing Fields Association annual conference

On June 17 2010, Panel member Sarah Winckless gave a presentation on the findings of the Facilities Inquiry at the County Playing Fields Association's annual Conference. CPFA's are autonomous, independent charities dedicated specifically to providing a comprehensive playing field and children's play space advice service for local community groups, ranging from Parish Councils to Voluntary Sports Clubs. They were therefore very interested to hear the findings from the Inquiry, which were well received.
