

## Next Steps

The Panel will be tackling each recommendation separately as the diversity of the recommendations, and the number of stakeholders involved in delivering these, means that no-one Department can deliver on the recommendations alone.

The Inquiry has received support from a number of organisations, some of whom have expressed an interest in joining Panel members in round table discussions with relevant ministers. The Panel, with the help of CCPR are currently working on getting dates in the diary to meet ministers and other key decision makers and influencers.

In addition, Panel members are continuing to voice the Inquiry findings in relevant meetings which they may have during the course of their day to day work.

The Panel is hoping to gather as much support as possible from as large a number of individuals and organisations in order to be able to successfully campaign on each recommendation if needs be. [Register your Support](#) for the Recommendations.
