

Support the Recommendations

The Facilities Inquiry is eager to act upon the [7 key recommendations](#) which they have made and Panel members are working alongside CCPR and other interested parties to seek meetings with relevant parties. Further details can be found on the [Next Steps](#) page.

One way in which the Inquiry can convey the recommendations to Government is through campaigning on behalf of all those who support the recommendations. To this end, the Panel would like to get the support of as many individuals and organisations as possible. If you believe in any, or all, of the recommendations, please register your support by filling out the [form](#). If you have any problems with the form or queries about completing it, please contact info@facilitiesinquiry.org.uk
